New Application from ATS

MIZAR is available now for the Mercedes-Benz C-Class and T-Model

Bad Dürkheim, November 9, 2022

ATS, a Superior Industries brand, continues to expand its application portfolio for MIZAR. The alloy wheel is available now for the Mercedes-Benz C-Class C 300 e and the T-Model.

It doesn't get more sporty than this! The five inward tapering double spokes give MIZAR its athletic look. A special feature is the front/rear axle combination of this sleek alloy wheel. While the 7.0 x 17-inch front axle application with its offset of 44.5 is attractive, it's MIZAR's 8.0 x 18-inch rear axle version with an offset of 49.5 that lends the C-Class C 300 e and the T-Model a powerful character. The MIZAR alloy wheel is available in diamond-black and polar-silver and is ECE-certified. ATS offers a five-year warranty for lasting driving pleasure.

About Superior Industries

Superior is one of the world's leading manufacturers of aluminum wheels for light vehicles. Superior supplies aluminum wheels to well-known automotive manufacturers and is the market-leading manufacturer of aluminum wheels for the accessories market (aftermarket) in Europe.

Superior maintains the leading European aftermarket brands ATS®, RIAL®, ALUTEC®, and ANZIO®. Superior has eight production plants, which are located in Mexico, Germany and Poland. Superior currently employs about 7,600 people worldwide.

Headquartered in Southfield, Michigan, Superior is listed on the New York Stock Exchange. For more information, please visit www.supind.com.
