

Press release

**FlowForming Technology for the BMW 4 Series
New Application for RACELIGHT by ATS**

Bad Dürkheim, September 22nd, 2021

The high-performance RACELIGHT wheel is now available for the BMW 4 Series. ATS, a Superior Industries brand, is proud to serve drivers of this sophisticated coupé with a new size of its timeless wheel.

RACELIGHT comes from the ATS Performance Line and is manufactured using innovative FlowForming technology, in which parts of the cast wheel blank are rolled out and compressed. Though laborious, this production process pays off – it minimizes RACELIGHT’s weight without adversely affecting its stability. This results in a decisive advantage in terms of driving dynamics due to the lower unsprung mass of the vehicle.

With an 8.5 x 19-inch version with an offset of 30 for the front axle and a 10 x 19-inch version with an offset of 40 for the rear axle, RACELIGHT now fits the BMW 4 Series. The alloy wheel underscores the sporty dynamics and expressive aesthetic of the vehicle. Customers can choose between royal-silver or racing-black paintwork. ATS grants a five-year warranty on both colours.

RACELIGHT at a glance:

Paint:	royal-silver ¹ , racing-black ¹
Size:	8.5 x 19 inches, 10.0 x 19 inches, 11.0 x 19 inches, 8.5 x 20 inches, 10.0 x 20 inches, 11.0 x 20 inches
